## **Opta Minerals Inc.**

### **Notes to Consolidated Financial Statements**

**(Unaudited)**

**September 30, 2010 and 2009**

**Expressed in Thousands of U.S. Dollars (except per share amounts and number of options)**

#### **1. Interim Financial Statements**

The interim consolidated financial statements of Opta Minerals Inc. (the "Company") have been prepared in accordance with Canadian generally accepted accounting principles. Accordingly, these financial statements do not include all of the disclosures required by Canadian generally accepted accounting principles for annual financial statements and therefore should be read in conjunction with the Company's audited consolidated financial statements, and notes thereto, for the year ended December 31, 2009. In the opinion of management, all adjustments considered necessary for fair presentation have been included, and all such adjustments are of a normal, recurring nature. Operating results for the three and nine-month periods ended September 30, 2010 are not necessarily indicative of the results that may be expected for the full year ending December 31, 2010. The accounting policies followed by the Company are the same as those disclosed in the Company's consolidated financial statements, and notes thereto, for the year ended December 31, 2009.

#### **2. Basis of Presentation and Nature of Operations**

The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries, Opta Minerals (USA) Inc.; Virginia Materials Inc. (Virginia Materials); International Materials & Supplies Inc. (International Materials); Temisca Inc. (Temisca); Magnesium Technologies Corporation (Magtech); MTI 01-2006 Inc.; OPM 01-2006 Inc.; Bimac, Inc. (Bimac); Newco, a.s. (Newco); Opta Minerals a.s.; Opta Minerals AB and Opta Minerals (Europe) S.A.S. All significant intercompany accounts have been eliminated on consolidation.

Opta Minerals Inc. is a vertically integrated provider of custom process optimization solutions and related materials for use primarily in the steel, foundry, loose abrasive cleaning and municipal water filtration industries. Further details are disclosed in the Company's Annual Report for the year ended December 31, 2009 that is available on SEDAR at [www.sedar.com](http://www.sedar.com).

#### **3. Summary of Significant Accounting Policies**

##### **Use of Estimates**

The preparation of these consolidated financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the dates of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

## Opta Minerals Inc.

### Notes to Consolidated Financial Statements

(Unaudited)

September 30, 2010 and 2009

Expressed in Thousands of U.S. Dollars (except per share amounts and number of options)

### 3. Summary of Significant Accounting Policies, cont'd

#### Recently Issued Accounting Pronouncements

The Canadian Institute of Chartered Accountants ("CICA") has issued the following accounting standards:

- a) CICA Handbook Section 3855 "Financial Instruments – Recognition and Measurement", has been amended to clarify the application of the effective interest method after a debt instrument has been impaired and when an embedded prepayment option is separated from its host debt instrument for accounting purposes. These changes are effective for the Company for its interim and annual financial statements beginning on January 1, 2011.
- b) EIC 175 "Multiple Deliverable Revenue Arrangements", has been issued to address some aspects of the accounting by a vendor for arrangements under which it will perform multiple revenue-generating activities. EIC 175 provides guidance on how to determine whether an arrangement involving multiple deliverables contains more than one unit of accounting and how arrangement consideration should be measured and allocated to the separate units of accounting in the arrangement. Also, there are new disclosure requirements. These changes are effective for the Company for its annual financial statements beginning on January 1, 2011.
- c) In February 2008, the Canadian Accounting Standards Board confirmed that the use of International Financial Reporting Standards ("IFRS") will be required for Canadian publicly accountable enterprises for years beginning on or after January 1, 2011.

The Company is currently evaluating the impact of adopting the above accounting standards.

### 4. Inventories

	September 30, 2010	December 31, 2009
Raw materials	\$ 14,522	\$ 11,659
Finished goods	5,596	5,522
	<b>\$ 20,118</b>	<b>\$ 17,181</b>

Included in the cost of goods sold reported by the Company is an expense related to inventory of \$13,362 for the three months ended September 30, 2010 (for the three months ended September 30, 2009 - \$11,365) and \$40,212 for the nine months ended September 30, 2010 (for the nine months ended September 30, 2009 - \$32,848).

**Opta Minerals Inc.****Notes to Consolidated Financial Statements****(Unaudited)****September 30, 2010 and 2009****Expressed in Thousands of U.S. Dollars (except per share amounts and number of options)****5. Intangible and Other Assets**

	<b>\$ 281</b>	\$ 105
Future income tax assets – long-term	<b>3,292</b>	2,779
Future income tax liabilities – long-term	<b>(3,011)</b>	(2,674)
	<b>\$ 281</b>	\$ 105

As at September 30, 2010, the Company has recognized the tax benefit of available non-capital losses, net of a valuation allowance, in the amount of \$2,573 (December 31, 2009 - \$2,065) which, if not utilized, will expire between 2014 and 2029. The benefit of non-capital losses has been recognized based on projections of future taxable income and the amount of the benefit of these losses ultimately realized is subject to change.

## Opta Minerals Inc.

### Notes to Consolidated Financial Statements

(Unaudited)

September 30, 2010 and 2009

Expressed in Thousands of U.S. Dollars (except per share amounts and number of options)

#### 7. Future Income Taxes on Intangible Assets

The Company has recorded future income tax liabilities in the amount of \$8,701 (December 31, 2009 - \$9,213) in relation to intangible assets acquired as part of the Magtech, Bimac and Newco acquisitions. Although the amortization of the intangible assets is not deductible for statutory tax purposes, a future tax liability has been established for the acquired finite life intangibles.

No amount of the future income tax liability upon liquidation of the intangible assets is payable to a tax authority, unless the intangibles were sold separately from the business.

#### 8. Capital Stock and Contributed Surplus

- a) The Company is authorized to issue an unlimited number of common shares without par value and an unlimited number of preference shares in series.

Common Shares	Number	\$
December 31, 2009	18,023,193	17,612
Employee stock purchase plan	10,326	14
September 30, 2010	18,033,519	17,626

The Company established an Employee Stock Purchase Plan ("ESPP") during 2005, pursuant to which 500,000 common shares have been reserved for issuance. The ESPP allows qualifying employees to buy the Company's stock at a discount to the market price.

- b) The movement in contributed surplus is as follows:

Balance – December 31, 2009	\$ 1,950
Stock compensation expense	218
Balance – September 30, 2010	\$ 2,168

As at September 30, 2010, there are 1,498,000 (December 31, 2009 – 1,068,000) stock options outstanding with exercise prices ranging from \$1.70 to \$4.74 per share. The weighted average exercise price is \$3.26 and the weighted average remaining contractual life is 4.1 years.

Expressed in Thousands of U.S. Dollars (except per share amounts and number of options)

## 9. Capital Risk Management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain a conservative capital structure. The Company's capital structure is not subject to any capital requirements imposed by a regulator and is composed of:

	September 30, 2010	December 31, 2009
Shareholders' equity	\$ 40,396	\$ 38,257
Bank indebtedness	2,980	3,355
Long-term debt (including current portion)	21,279	23,407
Future income tax asset (note 6)	(281)	(105)
Other long-term liabilities	1,095	1,387
	<b>\$ 65,469</b>	<b>\$ 66,301</b>

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue or reacquire shares, acquire or dispose of assets, and adjust the amount of cash and cash equivalents balances relative to bank debt and bank indebtedness.

As part of existing debt agreements, three key financial covenants are monitored on an ongoing basis by management to ensure compliance with the agreements as follows:

- tangible net worth calculation defined as equity less goodwill and intangible assets net of their applicable future income tax liability;
- funded debt to earnings before interest, tax, depreciation and amortization ("EBITDA") calculated on a rolling 12 month basis; and
- working capital ratio, defined as current assets divided by current liabilities.

Current liabilities	21,231	16,438
<b>Working capital ratio</b>	<b>1.62</b>	<b>1.74</b>

In order to facilitate the management of its capital requirements, the Company prepares annual budgets that are updated as necessary depending on various factors including general industry conditions. The annual budget is approved by the board of directors.

As at September 30, 2010, the Company is in compliance with the financial covenants of the credit facilities.

## 10. Financial, Other Instruments and Hedging

### a) Fair Value

The following table presents the carrying amount and the fair value of the Company's financial instruments and non-financial derivatives. Amortized cost is calculated using the effective interest rate method. Fair value is based on quoted market prices. These amounts represent point-in-time estimates and may not reflect fair value in the future. These calculations are subjective in nature, involve uncertainties and are a matter of significant judgement.

	September 30, 2010		December 31, 2009	
	Fair Value	Carrying Value	Category	Carrying Value
Cash and cash equivalents	\$ 909	\$ 909	HFT	\$ 781
Accounts receivable	12,527	12,527	L&R	9,422
Bank indebtedness	2,980	2,980	OFL	3,355
Accounts payable and accrued liabilities	12,733	12,733	OFL	8,544
Current portion of long-term debt	4,544	4,544	OFL	4,495
Long-term debt	16,735	16,735	OFL	18,912
Current portion of preference shares	45	45	OFL	44
Other long-term liabilities				
- Interest rate swap derivative	1,095	1,095	OFL	1,387

Financial instruments category guide:

HFT	Held for trading
L&R	Loans and receivable
OFL	Other financial liabilities

Changes in fair value of commodity contracts and exchange traded derivatives are included in cost of goods sold.

As of September 30, 2010, all the inputs used to fair value the interest rate swap were Level 2.

### b) Risks and Risk Management

#### l) Interest rate risk

The following table identifies the Company's financial assets and liabilities which are sensitive to interest rate movements and those which are non-interest rate sensitive as they are either non-interest bearing or bear interest at fixed rates.

	September 30, 2010		December 31, 2009	
	Interest Sensitive	Non-interest Sensitive	Interest Sensitive	Non-interest Sensitive
Cash and cash equivalents	\$ 909	\$ -	\$ 781	\$ -
Bank indebtedness	(2,980)	-	(3,355)	-
Long-term debt – term loan	(7,850)	-	(8,830)	-
Long-term debt – acquisition facilities	(11,448)	-	(12,362)	-
Promissory notes	-	(1,938)	-	(2,163)
Conditional sales contracts	-	(43)	-	(52)
	<b>\$ (21,369)</b>	<b>\$ (1,981)</b>	<b>\$ (23,766)</b>	<b>\$ (2,215)</b>

The interest sensitive component above has been substantially placed with bankers' acceptance notes in the amount of Cdn. \$18,934. These banker's acceptance notes have been renewed at 30 day intervals since their initial renewal in August 2008 and are currently at an interest rate of 1.2% plus a margin based on certain financial ratios of the Company. The remaining interest sensitive component accrues interest at the borrower's option based on various reference rates including prime, U.S. dollar base rate or LIBOR plus a margin based upon certain financial ratios of the Company.

## Opta Minerals Inc.

### Notes to Consolidated Financial Statements

(Unaudited)

September 30, 2010 and 2009

Expressed in Thousands of U.S. Dollars (except per share amounts and number of options)

## 10. Financial, Other Instruments and Hedging, cont'd

### b) Risks and Risk Management, cont'd

#### l) Interest rate risk, cont'd

The Company uses derivative financial instruments to manage exposure to changes in interest rates. During 2007, the Company entered into an interest rate swap with a notional amount of Cdn. \$17,200 for a term of 5 years. The swap fixes the Company's effective interest rate on this amount at 5.25% plus a margin based on certain financial ratios of the Company. To manage the credit and market risks associated with derivative financial instruments, the Company:

- deals only with counterparties that are highly rated financial institutions; and
- restricts the amount of hedging that can be transacted with any one counterparty.

A one percent annualized change in interest rates would affect the Company's earnings, cash flow and financial position by an amount of \$46 (2009 - \$96).

If the Company sells or terminates a hedged item, or it matures before the related hedging instrument is terminated, any realized or unrealized gain or loss on the derivative instruments is recognized in earnings. In accounting for this cash flow hedge, changes in fair value of this swap are included in other comprehensive income to the extent the hedge continues to be effective. The related other comprehensive income amounts are allocated to net earnings in the same period in which the hedged item affects net earnings. For all cash flow hedges, to the extent the change in fair value of the derivative is not completely offset by the change in the fair value of the hedged item, the ineffective portion of the hedging relationship is recorded immediately in net earnings. The Company's credit exposure to hedges and other derivatives is the current replacement value of any contracts that are in a gain position. For the three month period ended September 30, 2010, the Company's exposure from interest rate swap contracts resulted in a gain net of income tax equal to \$55 (2009 - gain of \$14) included in the results of other comprehensive income. For the nine month period ended September 30, 2010, the Company's exposure from interest rate swap contracts resulted in a gain net of income tax equal to \$175 (2009 - gain of \$297) included in the results of other comprehensive income.

## Opta Minerals Inc.

### Notes to Consolidated Financial Statements

(Unaudited)

September 30, 2010 and 2009

Expressed in Thousands of U.S. Dollars (except per share amounts and number of options)

## 10. Financial, Other Instruments and Hedging, cont'd

### b) Risks and Risk Management, cont'd

#### II) Credit risk

The Company's exposure to concentrations of credit risk is limited. The Company places its cash and cash equivalents with institutions of high creditworthiness, and the Company's accounts receivable are not subject to high concentrations of credit risk. Maximum credit risk exposure represents the loss that would be incurred if all of the Company's counterparties were to default at the same time.

As of the balance sheet date, approximately 67% (December 31, 2009 - 60%) of the Company's consolidated accounts receivable are current, while 6% (December 31, 2009 - 9%) of accounts receivable are over 60 days past due. The results are net of allowance for doubtful accounts in the amount of \$487 (December 31, 2009 - \$415).

The Company adjusts trade accounts receivable balances through a provision for doubtful accounts, to the expected realizable value as soon as the account is determined not to be fully collectible, with such adjustments charged to earnings. When a receivable balance is considered uncollectible it is written off against the allowance for doubtful accounts. The Company updates its estimate of the allowance for doubtful accounts based on a customer-by-customer evaluation of the collectibility of the trade receivable balances, taking into account amounts which are past due, the customer's payment history and any available information indicating a customer could be experiencing liquidity problems.

All individual customer balances that are deemed to be impaired have been adequately covered by the allowance for doubtful accounts as at the balance sheet dates.

#### III) Foreign exchange risk

The Company operates on an international basis, which gives rise to the risk that results of operations and cash flows may be adversely impacted by exchange rate fluctuations on transactions denominated in a foreign currency. Foreign exchange risk arises because the amount of the local currency receivable or payable for transactions denominated in foreign currencies may vary due to changes in exchange rates. The Company does not use derivative instruments to manage this risk.

The Company's Canadian operations are exposed to exchange rate changes between the U.S. dollar and the Canadian dollar and the Euro and Canadian dollar. The Company's primary U.S. dollar exposure in Canada relates to the revaluation into Canadian dollars of its U.S. dollar denominated working capital and long-term debt. As of September 30, 2010, fluctuations of +/- 5% would have an effect on earnings before income taxes of approximately +/- \$194 (September 30, 2009 - +/- \$142). The Company's primary Euro exposure in Canada relates to the revaluation into Canadian dollars of its Euro denominated intercompany receivables. As of September 30, 2010, fluctuations of +/- 5% would have an effect on earnings before income taxes of approximately +/- \$175 (September 30, 2009 - +/- \$1).

## Opta Minerals Inc.

### Notes to Consolidated Financial Statements

(Unaudited)

September 30, 2010 and 2009

Expressed in Thousands of U.S. Dollars (except per share amounts and number of options)

## 10. Financial, Other Instruments and Hedging, cont'd

### b) Risks and Risk Management, cont'd

#### III) Foreign exchange risk, cont'd

The Company's U.S. and European operations have minimal exposure to exchange rate fluctuations as substantially all of their transactions are denominated in the U.S. dollar and Euro, respectively.

The Company's reporting currency is U.S. dollars. All of the Company's operations are considered self-sustaining operations. The assets and liabilities of the self-sustaining operations are translated at exchange rates in effect at the balance sheet date. Unrealized gains and losses resulting from translating self-sustaining operations are accumulated and reported as a currency translation adjustment in accumulated other comprehensive income. For the three and nine months ended September 30, 2010, fluctuations in the exchange rate between the U.S. dollar and Canadian dollar of +/- 5% would have an effect of other comprehensive income of approximately +/- \$385 (September 30, 2009 - +/- \$393) and fluctuations in the exchange rate between the U.S. dollar and Euro of +/- 5% would have an effect on other comprehensive income of approximately +/- \$594 (September 30, 2009 - +/- \$553).

#### IV) Liquidity risk

The following table summarizes the Company's contractual maturity for its financial liabilities:

	1 Year	2 Years	3 Years	4 years	5 Years	Thereafter	Total
	\$	\$	\$	\$	\$	\$	\$
Accounts payable and accrued liabilities	12,733	-	-	-	-	-	12,733
Long-term debt	4,544	2,980	2,794	2,784	2,780	5,397	21,279
	17,277	2,980	2,794	2,784	2,780	5,397	34,012

In addition to the above, as at September 30, 2010, the Company has recorded \$1,095 (December 31, 2009 - \$1,387) as other long-term liabilities relating to the interest rate swap derivative.

### c) Collateral

The Company has pledged substantially all assets of the Company and certain of its subsidiaries as security for borrowings.

## **12. Segmented Information**

### **Industry Segments**

The Company operates in two industry segments.

a) Mill and foundry products and services operations

The Company's mill and foundry products and services operations segment processes and distributes industrial minerals and silica-free abrasives for the steel and foundry industries. Industrial minerals are used in a large range of applications for both the steel and foundry industries. Magnesium and lime are used in the desulphurization process. Bentonites are used for binders in foundry molding sands. Refractory minerals such as chromite and zircon are used to produce cores for high temperature metal casting as well as raw material and alloy agents.

This segment includes the Company's manufacturing, distribution and sales facilities in Walkerton, Indiana; Milan, Michigan; Brantford, Ontario; Waterdown, Ontario; Kosice, Slovakia; and Romans, France.

b) Abrasive products manufacturing and distribution operations

The Company's abrasive products manufacturing and distribution operations segment processes, distributes and recycles silica-free abrasives, roofing shingle granules and other industrial minerals for the marine, bridge, roofing and other abrasive cleaning; construction and water filtration industries.

This segment includes the Company's manufacturing operations in Norfolk, Virginia; Baltimore, Maryland; Hardeeville, South Carolina; New Orleans, Louisiana; Freeport, Texas; Tampa Bay, Florida; Keeseville, New York; Waterdown, Ontario; Laval and St. Bruno de Guigues, Quebec.

Inter-segment revenues are recorded at transaction prices which approximate cost. The Company's assets, operations and employees are located in Canada, the United States and Europe.
