**Indian Garnet 80S** contains Indian Beach garnet. Beach garnet, also referred to as alluvial garnet, is beach sand which is quite abundant on Indian and Australian coasts. This material is particularly popular due to its consistent supplies, huge quantities and clean material. **Indian Garnet 80S** is an excellent solution for waterjet cutting. It provides high precision cuts at high speed, at a very competitive price.

### ADVANTAGES OF INDIAN GARNET 80S

- Unlimited resources and large inventories
