Opta Minerals is a vertically integrated producer, manufacturer, distributor and recycler of industrial minerals, silica-free loose abrasives, roofing shingle granules, specialty sands and related products for use primarily in the foundry, steel, marine/bridge cleaning and municipal water filtration industries.

The Company currently has production and distribution facilities in Ontario, Quebec, Louisiana, South Carolina, Virginia, Maryland, Ohio, Indiana, Michigan, New York and Kosice Slovakia, and one of the broadest product lines in the industry. Recognizing that the fragmentation and lack of consolidation among suppliers in its industry has provided it with a strategic growth opportunity, the Company intends to capitalize on this opportunity to become one of the leading North American suppliers of industrial minerals and silica-free loose abrasives, while at the same time leveraging this core expertise to expand its breadth of services and product offering in other industrial minerals
